

OSCAR'S MAGIC SHOW

Oscar is well known around Tommytown.

He is the one
the animals go to when they get
into sticky situations,
like when Rosie's book fell into the pond,
and its pages were all crinkly
instead of lovely and smooth.

"Crinkled books are the best!"
declared Oscar.

And before Milo knew all about bees
and got his paw stuck in a beehive,

Oscar was there to help.

It was actually very sticky!

Yep,

Oscar is able
to show others how to make
the best of any situation,
and that often meant
using their brains to think about the situation
in a new way.

Oscar also knows
how to make the animals smile.

He is SO good at magic tricks!

So good, in fact,
that

he started a little class

where he taught others
how to do their own tricks.

"That's right, you've almost got it, keep practicing!"

Soon,
his little class of magicians
were ready for their end-of-year Show.

They had
one more day to practice,
and
were looking EXCELLENT!

"I'm so proud of you, guys!"
beamed Oscar.

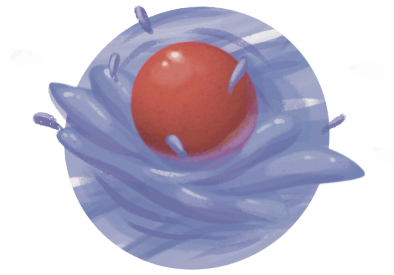

Little Daisy
was practicing by the river.

Her juggling was so good
that she could now juggle five balls
and was to be the star of the show.

"You're so clever, Daisy!" called Milo
who was watching from the river, thinking how fun it
would be to juggle fish like that!

But suddenly,
a gust of wind blew across the riverbank,
Daisy got a fright and...

All of Daisy's juggling balls
bounced down the riverbank and

POP, POP, POP, POP, POPPED

Into the water!

Daisy stepped into the water,
but it was rushing by too fast.

Milo reached out his paws,
but the balls quickly floated past him,
and away down the river.

"Now
I won't be able to join the Show tonight!"

The rest of the animals in
Tommytown had begun to gather
for the big night.

**Daisy raced to Oscar -
- he always knew what to do!**

"Oscar,
I have no juggling balls.
They all bounced into the river!"
cried Daisy.

Oscar patted Daisy's ears and rubbed his chin.

"I'll be right back!" he said.

"Thank you, Oscar, you're the best!"
shouted Daisy.

All of the animals loved the Show.

Not one of them minded
that the juggling balls weren't real juggling balls.
In fact,
they thought Daisy was extra clever!

This book has been produced with the sole purpose
of teaching young children.

Thanks to people.
